[1] The figures of Revenue and Expenditure are for the 12 months ended 31st December of each year until 1871, when the financial year was changed so as to terminate on the 30th June. The figures for 1871 are therefore for the six months ended 30th June, and the figures for subsequent years are for the twelve months ended 30th June.

[2] In addition to the quantity of land sold and amount realized within the year, the figures under the head "Crown Land Sales" represent, during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of years. The extent selected, of which the purchase had not been completed, is not included in the area sold. This amounted, at the end of 1889, to 6,650,000 acres. Lands granted without purchase, which amounted, up to the end of 1889, to 14,965 acres, are also excluded.

[3] Since the year 1864, a considerable quantity of wool has each year been imported into Victoria across the Murray, from the Riverina district of New South Wales, for transport by railway to Melbourne and shipment thence. Prior to 1872 no precise record of the quantity so introduced was kept at the Customs. It has, however, been ascertained that at least 13,000,000 lbs. of wool, valued at £972,000, crossed the Murray into Victoria in the year 1870, and the following amounts in the years named:—19,552,598 lbs., valued at £1,096,772, in 1872; 31,542,913 lbs., valued at £1,745,550, in 1873; 35,332,089 lbs., valued at £1,975,879, in 1874; 40,535,081 lbs., valued at £2,260,799, in 1875; 44,430,185 lbs., valued at £2,039,009, in 1876; 37,647,218 lbs., valued at £1,661,868, in 1877; 43,357,702 lbs., valued at £2,081,368, in 1878; 46,561,653 lbs., valued at £2,338,670, in 1879; 54,865,967 lbs., valued at £2,720,612, in 1880; 53,090,294 lbs., valued at £2,594,240, in 1881; 44,213,260 lbs., valued at £2,224,512, in 1882; 29,072,345 lbs., valued at £1,355,219, in 1883; 42,796,749 lbs., valued at £1,875,962, in 1884; 39,306,234 lbs., valued at £1,633,517, in 1885; 40,138,278 lbs., valued at £1,866,029, in 1886; 52,423,118 lbs., valued at £2,198,223, in 1887; 48,045,819 lbs., valued at £2,036,637, in 1888; and 54,738,160 lbs., valued at £2,608,743, in 1889.

[4] The quantities of flour, bread, and biscuit imported and exported are reduced to their equivalent in bushels, on the assumption that one bushel of wheat produces 45 lbs. of either of those articles.

[5] The births and deaths given for 1853 are all of which there is any record; but it is known that the figures considerably under-state the truth, and it is supposed that each in reality amounted to not less than 5,000. The deficiency has chiefly arisen from the fact that the system of registering births and deaths was entirely changed during the year 1853, and the new system was not at first properly understood. In consequence of this, and also owing to the unsettled state of the gold-field population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

[6] Post cards were first issued in April, 1876. They are included with the letters in this column.

[7] Prior to 1871 the expenditure was for the year ended 31st December. The figures for 1871 relate to the first six months only. Since that date they have been for the year ended 30th June—except as regards the Railway expenditure in 1876, which is for the eighteen months ended 31st December, and in the years 1877 to 1884, which are for the twelve months ended 31st December; and except as regards Country Waterworks expenditure, which for all the years prior to 1885 is for the years ended 31st December. The figures do not in any case include amounts expended by municipal governments.

[8] These returns are those of the Government and private railways combined, the latter of which were purchased by the State in July 1878. The returns of the former are, prior to 1871, for the year ended 31st December; in 1871 for the six months ended 30th June; in the years 1872-5 for the twelve months ended 30th June; in 1876 for the eighteen months ended 31st December; in the years 1877-84 for the twelve months ended 31st December; and subsequently for the twelve months ended 30th June. The returns of private railways are for the year ended 31st December up to the time they were purchased by the Government.

[9] Post Office Savings Banks were first opened in 1865. Hence the increase in the number of banks from that year. The returns for the Post Office Savings Banks are for the years ended 31st December, those for the ordinary Savings Banks are for the years ended 30th June.

[10] Until 1879 the figures did not give particulars of all the Friendly Societies in the colony, but only of such as furnished returns. For that and subsequent years the returns are complete.

[11] The increase in the number of telegrams, in 1870 and 1885, was consequent on a reduction in the rates.

[12] Including purchase-money of the late Melbourne and Hobson's Bay Railway Company's lines.

[13] For the first time telegrams on Railway service were not included.

* It has been pointed out by the Right Reverend Samuel Thornton, D.D., Anglican Bishop of Ballarat, that members of his section of the Protestant Church claim to be Catholics as well as the bodies here named. The term, however, as at present applied, can mislead no one.

Deaths recorded	11,064	8,328	19,392			
Departures by sea recorded	46,679	21,739	68,418			
Departures by land and sea, unrecorded (estimated) ...	4,668	1,304	5,972	62,411	31,371	93,782
Estimated increase during the year				12,465	14,694	27,159
„ Population on 1st January, 1889				581,333	509,536	1,090,869
Estimated Population on 31st December, 1889				593,798	524,230	1,118,028
Estimated mean population of the year				587,550	516,750	1,104,300

Note.—In the present estimate of population, allowance has, as in previous years, been made for the unrecorded departures which have occurred since the Census of 1881 was taken. Such departures, between the date of the Census and the end of 1889, are estimated to have amounted to 47,229, viz., 37,560 of males and 9,669 of females. Had this allowance not been made, the population of Victoria would have apparently amounted at the end of 1889 to 1,165,257, viz., 631,358 males, and 533,899 females.

[1] See footnote 2 to table "Value of Principal Articles Imported," *ante.*

[2] Wool from across the Murray passing through this colony for shipment in Melbourne has, since 1871, been included both in the Imports and the Exports. In 1871, and prior to that year, it was included in the Exports but not in the Imports.

NOTE.—This table has been compiled by the Government Statist from returns furnished each year by the Customs Department.

* The figures in this column express the proportion of wharfage rates paid into the consolidated revenue. Four-fifths of the wharfage rates received at the Port of Melbourne are retained by the Melbourne Harbour Trust, by which body the whole are collected.

† Including excise duty paid direct into the Treasury.

NOTE.—This table has been compiled by the Government Statist from returns furnished each year by the Customs Department.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies, held in Tasmania in the month of January, 1875.—— [2] Including revenue from Beer and Tobacco Duties, amounting to £84,429 in 1880–81, and £216,547 in 1881–2. The duties were first imposed on the 1st November, 1880. The Beer Duty expired by effluxion of time on the 31st August, 1882. The duty on spirits was increased on the 17th July, 1884.—— [3] For about 6½ months only. The duties were imposed on the 18th December, 1879. Since the 1st January, 1884, the revenue from stamp duties has been estimated, in consequence of the stamps hitherto used to denote Stamp duty, Postage, and Fees having been made interchangeable, and only one class of stamps for all purposes is to be used in future.—— [4] The amount of Land Tax payable annually varied from £126,000 to £124,000. The fluctuations in the revenue above and below this limit are due to the irregular payments of the tax.—— [5] Including, for the first time, revenue derived from the Melbourne and Hobson's Bay system, recently purchased by the Government, amounting to £203,679. This amount consists of £43,728 net revenue for 1878–9, and £159,951 gross revenue for 1879–80.—— [6] Including interest on loans to Local Bodies for Waterworks.—— [7] Estimated.—— [8] For details of this item, see Supplementary Table, *post*.—— [9] Not including £500,000 raised by means of Treasury Bonds.

HENRY HEYLYN HAYTER, Government Statist.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies held in Tasmania in the month of January, 1875.

[2] Including Governor's salary, and salaries of Ministers, Commissioners of Audit, Agent-General, expenses of Executive Council, and Public Service Board.

[3] Including cost of the following departments:—Chief Secretary, Shorthand Writer, Agent-General, Audit Office, Registrar of Friendly Societies, Treasury, Stores and Transport, and Government Printer.

[4] Including expenditure under the following heads:—Education, Government Statist, Observatory, Government Botanist, Public Library, Museums and National Gallery; Grants to Mechanics' Institutions, Free Libraries, &c., and Grants to Schools of Mines and Design.

[5] Including expenditure under the following heads:—Chief Medical Officer, Central Board of Health, Hospitals for Insane, Industrial and Reformatory Schools, and Grants to Charitable Institutions.

[6] Including £5,620 for surveys in Mallee districts, &c., to be recouped by lessees.

[7] The amount entered under the head of Special Appropriations in 1885-6—with the exception of £6,000 for salaries of the Railway Commissioners—was paid into the "Railway Construction Account," in accordance with the direction of the *Land Act* 1884 (48 Vict. No. 812, sec. 78), whereby it was provided that all moneys arising from the sale by auction of Crown lands shall be placed to a trust account, the amount standing to the credit of which should be available for the construction of railways. The amounts entered prior to 1882-3 also represent the payment of moneys derived from the alienation of Crown Lands—but fixed at £200,000 per annum—to a similar account (known as the "Railway Loan Liquidation and Construction Account"), which was created under the *Land Act* 1869 (33 Vict. No. 366). The total amount paid into both these accounts up to the 30th June, 1889, was £2,590,516, which has been expended on the survey or construction of lines of railway. The amounts entered under the head of "Votes" represent the working expenses of railways, except £500 in 1886-7, and £4,144 in 1887-8, paid towards construction.

[8] Exclusive of £50,000 recouped in 1885-6.

[9] Exclusive of School Buildings, Railways, Water Supply, and of all public works paid for out of loans, but inclusive of endowments of municipalities under the *Local Government Act*. The expenditure on the Port of Melbourne, included under this head prior to the 1st January, 1877, has since been paid out of the Harbour Trust Fund.

[10] The provision of the *Local Government Act* 1874, authorizing the annual subsidy of £310,000 to municipalities, lapsed on the 31st December, 1879, but amounts equivalent to the subsidy have since been voted by Parliament. This accounts for the gradual transfer of this item of expenditure from "Special Appropriations" to "Votes."

[11] The amounts under the head of "Special Appropriations" represent the net expenditure on account of Steam Postal communication, including gratuities to masters of vessels, interest on Savings Banks deposits, and subsidy for maintenance of the cable from Port Darwin to Penang.

[12] Although the annual subsidy to the Mint is £20,000, portion of that sum has been repaid each year to the revenue.—See Table of General Revenue, *ante* under the head "Mint Subsidy returned."

[13] The expenditure under the head of "Votes" represents interest and expenses in connexion with the Melbourne and Hobson's Bay Railway Debentures.

[14] Including a vote of £2,600 in 1880-81, of £5,000 in 1881-2, of £8,000 in 1882-3, of £10,000 in each of the years 1883-4 to 1886-7, and of £7,000 in 1887-8 and in 1888-9, to meet deficiencies in the Police Superannuation Fund.

[15] For details of expenditure from votes under this head, see Supplementary Table, *post*. The amounts in the column for "Special Appropriations" are the unexpended balances of the Pension Fund (Schedule D, Part V.), repaid each year to the revenue.

[16] Including £100,000 in 1887-8, and £178,694 in 1888-9, towards the expenses of the Melbourne Centennial International Exhibition.

[17] Not including £471,900 in 1881-2, £18,000 in 1882-3, and £10,100 in 1883-4, expended towards the redemption of Treasury Bonds.

NOTE.—For items of expenditure out of Loans raised under various Acts for the purposes of Water Supply, Railways, Public Buildings, State School Buildings, and Alfred Graving Dock, see Table of Loan Account Expenditure, *post*.

* The Melbourne Harbor Trust was established under Act 40 Vict. No. 552, which came into operation on the 1st January, 1877.

† The figures in this line represent four-fifths of the Wharfage Rates at the Port of Melbourne, which proportion has formed part of the Revenue of the Trust since the 30th June, 1877. Prior to that date, the whole of the Wharfage Rates were paid to the General Revenue of the colony.

‡ Exclusive of sums received as premiums on loans raised, amounting to £32,434.

§ Figures have been revised since last publication.

* Embracing the pensions of Lady Darling, of Mrs. Petrie, of Ministers relieved from office on the introduction of Responsible Government and on political grounds, of ex-Supreme Court Judges, and the Superannuation Allowances of a late Clerk of the Parliaments and of a late Master-in-Equity.

† Including pensions under the Railways, Public Service, Education, Discipline Acts, &c.

NOTE.—Up to 1880–81 the pensions and superannuation allowances referred to in this table are those which would be payable supposing the whole to have been in existence throughout the 12 months. Since that year the figures represent the absolute amounts paid. The material for this return has been derived from statements furnished each year by the Honorable the Treasurer.

* These figures have been copied from the return for the year ended 31st December, 1888, as the information has not been furnished for 1889.

† In consequence of the absence of a return from the Premier Permanent Building Land and Investment Association, which suspended payment on the 20th December, 1889, and is now in liquidation, also from the fact that less business was done by building societies generally than in 1888, which was a year in which large speculative transactions took place in the purchase and sale of land, and the erection of houses, the total figures in several instances show a considerable falling off as compared with those published in the similar table last year.

* This large apparent surplus resulted from the fact that the declared assets in 1887 were largely made up of a debt of £570,597 set down as due by the Crown to the estate of W. R. Merry. Had this not been included, the declared assets, as compared with the declared liabilities, would have shown an apparent deficiency of £125,106.

[1] No doubt in each of these cases the charge was changed to "common assault."

[2] One of these was a juvenile offender, and the other was no doubt treated as a case of "aggravated assault."

[3] These were all juvenile offenders.

[4] In three cases of horse and cattle stealing the charge was no doubt changed to "illegally using;" three were against juvenile offenders, and 52 charges were such as are usually dealt with by magistrates.

[5] In these cases, in all probability, the charge was changed to "endeavouring to impose."

[6] Of these, 102 males were ordered to pay sums of money weekly; 38 males and 4 female were remanded to places outside the colony; 30 males were sentenced to be imprisoned until the order of the court was complied with; 20 males were whipped without further sentence. In the cases of 14 males and 2 females the bail was estreated; 4 prisoners were handed over to the military authorities, and 1 was sent on board ship. A lad who deserted his apprenticeship was sentenced to 3 days in solitary confinement before being sent back. A female was locked up to be ready as a witness. In 1 case the wages due to the offender were forfeited.

ADDITIONAL SENTENCES.

Assault.—Five prisoners were ordered to find bail in addition to other punishments.

Offences against Person and Property.—Two of these prisoners were ordered to find bail; and one to be privately whipped in addition to imprisonment.

Horse and Cattle Stealing, &c.—Two lads were ordered to receive eighteen strokes on the back with a cane in addition to imprisonment.

Offences against Property.—Five prisoners were ordered to find bail at the expiration of their sentence; fifteen juvenile prisoners were ordered to be caned—145 strokes in all; and three prisoners were ordered to be privately whipped in addition to imprisonment.

Offences against Good Order.—Five prisoners were ordered to be whipped in addition to other sentences, the number of lashes being from twenty to thirty. Three boys were ordered to receive twelve strokes with a cane; and eight boys, between the ages of 7 and 10, were ordered a stroke with a cane for each year of their age. Three prisoners were ordered solitary confinement—one, two days; one, seven days; and the other three periods of one week.

Offences against carrying out Laws.—Two prisoners, illegally at large, were each sentenced to a year in irons.

Offences against Public Welfare.—One of these sentences included twelve strokes with a cane.

* Including 18 marriages of Chinese, 1 being a half-caste Chinese born in Victoria; and of 4 Aboriginal males to Aboriginal females. The former were celebrated according to the rites of the following Churches:—Church of England, 4; Free Church of England, 2; Presbyterian, 2; Wesleyan, 4; Baptist, 2; Roman Catholic, 1; Independent, 1; and Lay Registrars, 2. One of the latter was celebrated according to the usages of the Presbyterians; 2 of the Wesleyans; and 1 of the Moravians. Of the brides who married Chinese, 2, although born in Victoria, were stated to have been of Chinese extraction.

† Including the marriages of 9 divorced males to spinsters, and those of 8 divorced females to bachelors; also the marriage, according to Presbyterian rites, of a couple who had evidently been previously married to each other.

‡ Including the marriages of 2 divorced males to widows, and the marriages of 3 bachelors (one a Chinaman) to women who had not heard of their former husbands—one for 9 years, and two for 12 years.

§ Including the marriages of 2 divorced females to widowers

‖ Including the marriage of 2 widows to men who had not heard of their former wives for 7 and 12 years respectively.

¶ Seven Chinamen included, four of whom made marks in the Chinese character.

NOTE.—The above classification, which has been in use in Victoria since 1885, was framed by the Registrar-General of England some years since, on the basis of the Nomenclature drawn up by a Committee of the Royal College of Physicians—the second edition of which was published in 1885. In order to facilitate the classification of the causes of death in Victoria according to this method, a nosological index suitable thereto has been compiled by the Government Statist, and was issued in the early part of 1887. For further information respecting this classification, see *Victorian Year Book*, 1886–7.

HENRY HEYLYN HAYTER, Government Statist.

NOTE.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been rearranged, so as to agree with the system now in use. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases, recorded but not specially enumerated in former years, are now arranged, are indicated in the following notes:—

(*a*) "Epidemic Rose Rash" (Class I. Sub-Class 1) and "Cellulitis" (Class VI. Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*c*) "Others from Vegetable Parasites" included with "Others from Animal Parasites."

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with "Cancer" (IV.).

(*f*) "Anæmia, Chlorosis and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with "Diseases of the Bladder" (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII.).

(*i*) "Softening of the Brain" (VI., 1) and Diseases of the "Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System.

(*j*) "Laryngismus Stridulus" (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) classed under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope," classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* A large proportion of Deaths from Diphtheria and Croup are ascribed to both causes conjointly, and it has often been difficult to decide under which head any particular case should be classified. Latterly, however, the rule has been to consider all cases of Diphtheritic Croup as Croup.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

§ Including three outlaws, who were killed by the police.

NOTE.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been rearranged, so as to agree with the system now in use. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases, not specially enumerated in former years, are now arranged, are indicated in the following notes:—

(*a*) "Epidemic Rose Rash" (Class I., Sub-Class 1) and "Cellulitis" (Class VI., Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*c*) "Others from Vegetable Parasites" included with "Others from Animal Parasites."

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with "Cancer" (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with "Diseases of the Bladder" (VI., 7).

(*h*) Atelectasis" (V.) included with "Debility" (VIII.).

(*i*) "Softening of the Brain" (VI., 1) and Diseases of the "Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus" (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) classed under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope," classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* A large proportion of Deaths from Diphtheria and Croup are ascribed to both causes conjointly, and it has often been difficult to decide under which head any particular case should be classified. Latterly, however, the rule has been to consider all cases of Diphtheritic Croup as Croup.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

Note.—The deaths occurring in *Hospitals, Asylums, &c.*, are shown separately, they having been eliminated from the sub-districts in which they were recorded. If these were distributed over the various districts, the deaths in each district would, of course, be proportionately increased.

* Included in these areas are parks, gardens, and other public reserves, which in Melbourne City cover an area of 1,723 acres, in North Melbourne of 9, in Fitzroy of 41, in Collingwood of 39, in Richmond of 190, in Prahran of 23, in South Melbourne of 474, in Port Melbourne of 80, in St. Kilda of 250, in Brighton of 167, in Essendon of 54, in Flemington and Kensington of 307, in Hawthorn of 15, in Kew of 634, in Footscray of 36, in Williamstown of 446, and in Northcote of 14. There are also 569 acres in "Remainder of District." The sum of the areas in all the sub-districts amounts to 5,072 acres.——† For alteration in the constitution of this municipality, see footnote (*) on page 30, *ante*.——‡ Including the Melbourne, the Homœopathic, the Alfred, the Women's, and the Children's Hospitals; the Austin Hospital for Incurables; the Metropolitan and Yarra Bend Lunatic Asylums; the Immigrants' Home, the Benevolent Asylum, the Infant Asylum, and the Home of the Little Sisters of the Poor, Northcote. For the deaths which occurred in each of these institutions, see special table on the next page.——§ Census figures.

Note.—This table, which is supplementary to the preceding one, does not include all the public institutions in Melbourne and suburbs, but only such as have a high rate of mortality, and consequently would, if included, have a tendency to swell the general mortality of the sub-districts in which they are situated. In 1889 the deaths in all the principal public institutions—including, besides those enumerated above, gaols and penal establishments, industrial schools, orphanages, female refuges, &c.—numbered 1,791, particulars of which will be found in various portions of the *Statistical Register*. The numbers given are those of deaths *registered* during each year, and consequently may not agree exactly with those which actually occurred in the institutions during the same period.

* Deaths of infants born in the institution are also included.

† Deaths in this hospital were not eliminated for the purposes of this table prior to 1881.

METEOROLOGY.

*** The times of taking daily observations whereby the records of mean temperature and mean atmospheric pressure are obtained at the various stations are as follow:—Melbourne, Portland, and Wilson's Promontory, 6h. and 9h. a.m., and 3h. and 9h. p.m.; Ballarat, Cape Otway, Sandhurst, Gabo Island, and Echuca, 9h. a.m., and 3h. and 9h. p.m. To these observations a correction is applied, in order to make the results equivalent to those derived from hourly observations. At Echuca the mean temperature is derived from the max. and min. readings.

* Including licences for residence and cultivation, limited to 20 acres each.

Note.—Pastoral and grazing area leases are granted for any period not exceeding fourteen years, and Mallee pastoral leases for any period not exceeding twenty years, from the commencement of the Acts, 29th December, 1884, in the former, and 1st December, 1883, in the latter case; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown not required under the principal sections of the Act. The Mallee pastoral leases, as the name indicates, are confined to the Mallee country, in the North-Eastern portion of the colony, which is placed under a special Act, viz., *The Mallee Pastoral Leases Act.* The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions an area not exceeding 320 acres out of their lease for agricultural purposes).

* In 1863-4, 1864-5, and 1878-9, the yield of wheat was much affected by "rust."

† The tobacco crop in 1875-6 and 1879-80 failed in most parts of the colony.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of one acre and less in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

* Reapers and Binders were included with Reaping Machines prior to 1884.

NOTE.—Prior to 1882, the machines and implements on pastoral as well as on agricultural holdings were included, but in and since that year only the latter. The large numbers in 1881 are accounted for by the fact that the statistics were then taken by the census sub-enumerators, and the collection was consequently more complete and searching than on ordinary occasions.

* In some instances, in former years, all the wheat returned as "operated upon" was not ground into flour, but for the last few years care has been exercised to exclude from this column particulars of wheat otherwise treated.

† Prior to 1887 a few of the mills returned each year were upon Crown lands; in these cases no valuation of the land has been given.

Note.—Stone-breaking and tar-pavement works being carried on in connexion with quarries, it is found impossible to separate them therefrom. The hands, machinery, &c., employed in these industries are therefore included with those of the quarries since 1885.

* Some of the stone quarries returned each year were upon Crown lands. In these cases no valuation of the land has been given.

HENRY HEYLYN HAYTER, Government Statist.

MANUFACTORIES, WORKS, QUARRIES, ETC.—(I.)

GENERAL SUMMARY of the Manufactories, Works, &c., in each Municipal District in operation during the Year ended 1st March, 1890; also the Nature and Amount of Power employed, the Number of Hands employed, and the Approximate Value of Machinery and Plant, and of Lands and Buildings.

*** *The works, manufactories, &c., respecting which information is given in this Table are of an extensive character, except in cases where industries of an uncommon or interesting nature might appear to call for notice, or where expensive machinery is used. Mere shops, at which some manufacturing business is carried on, are not included.*

* The figures in this column apply to purchased lands only. Two hundred and seventy-seven of the manufactories were carried on upon Crown lands, and in these cases no valuation of the land has been given.

† These particulars have been combined, in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published. One of the establishments to which they relate was situated in each of the following boroughs:—Chewton and Queenscliff; and one in each of the following shires;—Bet Bet, Cranbourne, Ferntree Gully, Howqua, Lexton, Wannon, and Whittlesea; and one at French Island, which is in no municipality.

* The figures in this column apply to purchased lands only. Two hundred and seventy-seven of the manufactories were carried on upon Crown lands; in these cases no valuation of the land has been given.

† It has been found impossible to separate stone quarries from other works carried on in connexion therewith. They are, therefore, necessarily included in this table.

‡ Waterworks have not been included, as they are not, properly speaking, manufactories. Special Tables of all the waterworks in the colony are published on pages 76 to 82, *post*.

§ These particulars have been combined, in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published.

NUMBER OF MANUFACTORIES, WORKS, QUARRIES, ETC.—RETURN FOR ELEVEN YEARS.

⁎ *The works, manufactories, &c., respecting which information is given in this Table are of an extensive character, except in cases where the existence of industries of an uncommon or interesting nature might appear to call for notice, or where expensive machinery is used. Every bootmaker's, tailor's, dressmaker's, carpenter's, cooper's, blacksmith's, baker's, or confectioner's shop may, in a certain sense, be called a manufactory, but no attempt has been made to enumerate such places.*

MACHINERY ON THE GOLDFIELDS—*continued.*

RETURN showing the Machinery Employed in Quartz Mining, and the Value thereof, in each of the Divisions and Subdivisions of the several Mining Districts during the Quarter ended 31st December, 1889.

District, and Division or Subdivision.	Machinery employed in Quartz Mining.																			
	Steam Engines.		Crushing Machines driven by other power than Steam.	Stamp-heads (crushing quartz or other vein-stuff).	Buddles.	Winding, Washing, Pumping, or other Machines moved by Water-power.	Whims.	Whips or Pulleys.	Diamond Drills.	Other Boring Machines.	Stone-Breakers.	Concentrating Tables.	Wheeler's Pans.	Chilian Mills.	Arastras.	Berdans.	Amalgamating Barrels, &c.	Quicksilver and compound Cradles.	All other Machinery	Value of all Quartz Mining Machinery.
	Number.	Aggregate Horse-power (nominal).

NOTE.—The patents applied for numbered 1,097 during the period from 1854 to 1867, both years inclusive; 124 during the year 1868; 139 during 1869; 119 during 1870; 133 during 1871; 122 during 1872; 146 during 1873; 147 during 1874; 154 during 1875; 155 during 1876; 145 during 1877; 147 during 1878; 158 during 1879; 176 during 1880; 197 during 1881; 242 during 1882; 249 during 1883; 295 during 1884; 459 during 1885; 485 during 1886; 676 during 1887; 883 during 1888; and 951 during 1889. The discrepancy between the actual numbers and those obtainable by adding up the columns may be explained by the fact that many patents refer to more than one subject, and have, consequently, to be classified under two or more headings.

[1] These amounts were received many years since. No Government aid has ever been given towards maintenance.——[2] Regular masters only. Visiting masters are not included.——[3] In connexion with the Melbourne Grammar School there are three council scholarships of the annual value of £21, for boys under 14, tenable at the school for three years; and two exhibitions of the annual value of £20, tenable for two years, open to the competition of boys proceeding to the Melbourne University, whose names have been for the two previous years on the school register, and who have passed the Matriculation Examination with credit. The Head Master offers for open competition, in February each year, two scholarships of the annual value of £30 and £25, and four exhibitions—two of the value of £15 and two of £10. The three senior scholarships and exhibitions are open to boys under 15 on 1st February every year; the three junior to boys under 13. There is also a "Witherby Scholarship," the holder of which claims exemption from school fees for three years. The school is now divided into two sides—Classical and Modern—from the Third Form upwards, the Modern side being arranged so as to provide continuous preparation for commercial or station life.——[4] A scholarship of the value of £60 per annum, tenable for two years, has been given by Mrs. F. W. Armytage, the conditions of tenure being that the holder shall be a resident student of Trinity College, Melbourne, and shall have been for two years previously a pupil of the Church of England Grammar School, Geelong. The Head Master always receives one son of a clergyman of the Church of England as a resident boarder, exempt from all school fees and cost of residence. There is a Preparatory School for boarders and day-scholars attached to the school.——[5] In connexion with the Scotch College, scholarships of the value of 10 or 20 guineas each are given to students who gain a satisfactory position in the class honour lists at the Matriculation Examination, such scholarships to be tenable for one year; scholarships value 20 guineas and 10 guineas each (according to merit), open to all boys who have passed the Matriculation Examination, to be awarded for excellence in any one or more of the four groups of subjects:—Classics, mathematics, French and German, English and history. There will be two different examinations, the standard required for the higher being that for Honors at Matriculation, and for the lower that for the ordinary Pass. Scholarships value £10 each, open to all boys who gained State school exhibitions or scholarships in 1889. Subjects of examination same as those prescribed by the Education Department.——[6] In connexion with the Wesley College there is a scholarship called the "Draper Scholarship," which was established in memory of the late Rev. D. J. Draper, who perished in the *London*. It is of the value of £25, tenable for one year. Two other scholarships have also been founded by Mrs. Powell, to be called the "Walter Powell Scholarships," in memory of her late husband. They are of the value of £40 each, payable in two annual instalments of £20, and tenable on condition of the scholar pursuing his studies at the University. In addition there are the "Waugh," the "Eggleston," and the "Corrigan" scholarships, each of the value of 16 guineas, tenable for two years. A strictly commercial side has been established, in which boys who are destined for mercantile pursuits can, if their parents so desire, be exempt from the study of Latin and French, other subjects fitting them for their future career being substituted.——[7] St. Francis Xavier's College was opened during the year 1878, and many of the scholars were transferred to it from St. Patrick's, of which it is a branch. Scholarships to the aggregate value of 100 guineas will be competed for in February, 1890.

* It is probable that the figures in these columns do not always indicate distinct individuals, but acts of relief, and that a person relieved over-and-over again is the cause of as many entries as he is times relieved.

NOTE.—The returns of some of the societies do not distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not agree with the total of both sexes. The returns of receipts and expenditure represent the *net* amounts received and expended, exclusive of credit and debit balances, &c.

* Of these, 30 were males and 7 were females.

† Patients are frequently unwilling to acknowledge parental intemperance, hence this number is far below the heredity.

NOTE.—It is with deep regret that I refer to the so-called Inebriates Act of 1888, passed on the last night of the Session of Parliament, with a kind of protest from the Upper House. Under this Act I cannot admit any compulsory patient, nor can I keep against his will any voluntary patient who insists on leaving. The Orders in Council under this Act are totally unsuitable; I have had, therefore, to refuse admission to all compulsory cases since 1888, no doubt with sad consequences.

CHARLES McCARTHY, M.D.,
Hon. Member of the American Association for the Cure of Inebriates,
Hon. Member of the Council of the Society for the Study and Cure of Inebriety, England.

Note.—This Society does not aim to distribute charity, but ascertains by investigation whether applicants for relief are deserving of assistance, and thereby assures charitably disposed people that their sympathies are being properly exercised. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence and records in charitable work.
